17 YEAR OLD HIP HOP ROCK GUITARIST KUKAHI TO RELEASE SECOND ALBUM

*Tracked on the Big Island of Hawaii and mixed at Off The Row recording studios,
the official release date is set for May 5th 2017*

Honolulu HI: Having practiced for the studio recording of his upcoming 10-song album titled "Human," teen prodigy singer-songwriter Kukahi was pleased with how it all turned out in a short period. "I feel like we are on the brink of something special and that many opportunities are soon to come. We just have to be prepared for them."

Working with producer/ engineer P.T. Houston (Randy Meisner, Phil Everly, Freddie Fender) turned out to be the best fit for his second effort in the studio. "P.T. Houston is great to work with." states Kukahi. "He did an excellent job with staying true to our artistic vision, and adding his own cool, unique flair to it as well. He was also very helpful because he would give us feedback and constructive criticism on our recording technique."

"As a songwriter his skills are beyond his years" states engineer producer P.T. Houston. "As a performer he can cover just about any genre. The future is wide open in the new music business."

"Kukahi's album has a lot of inspiring messages, every song tells a story." states manager Shane Lee of Makalii Productions. "You can hear that he has direction to where he is trying to go with his music. Kukahi has a God given voice and gets his audience worked up and alive during live performances."

"Human" is a follow up to Kukahi's debut 10 song self-titled album which received critical acclaim in his home state of Hawaii. He is being considered for a nomination at the 40th annual [Na Hoku Hanohano](#) Awards which airs on May 20th, 2017 and is considered to be Hawaii's version of the Grammy Awards. His album release party is scheduled for Thursday May 4th from 6-9 pm at the Americana Lounge located inside The Record Parlour located at 6408 Selma Ave. in Hollywood CA.
